Programming & Record/Playback Features

VCR Plus+™ Programming

Simplifies programming of the VCR section by allowing you to simply enter PlusCode® programming numbers found in many published television listings. When recording begins, your Combi automatically selects the proper TV channel and program length. Back-up memory logic retains the cable channel guide map indefinitely even during a power failure or when the Combi is disconnected from its power source.

One-Touch Record

Record up to eight hours or to the end of the tape with the touch of a single button. Each touch of the OTR button adds 30 minutes of additional recording time.

8-Event/1-Year Smart Programming

Remote Control Onscreen Menu Programming

Picture

Four-Head, Double Azimuth Design

Combines direct drive cylinder and capstan motors with precision digital servo control to produce excellent special effects—Still, Slow, and Frame Advance—in both SP and SLP speeds.

SmartPicture™

A touch of the SMART PICTURE button on the remote control provides the option of selecting one of five factory preset positions to enhance enjoyment of video games, sports, movies or weak signals. Select the desired option and all important picture elements are instantly adjusted to optimize viewing pleasure.

Digital Auto Tracking System

Auto Head Cleaner

Convenience

SmartClock™

Once activated, this menu-driven feature will automatically maintain the correct time, regularly checking and updating if necessary. This function will also reset the clock after a power failure. The menu-driven time zone feature allows selection of appropriate time for those who live in a time zone other than that of their CATV service provider.

Closed Caption

Activated through a special onscreen menu, the Closed Caption feature allows the hearing impaired to read dialogue and narratives (on Closed Caption telecasts) without the use of an optional, external decoding device. Program dialogue and narrative material is printed at the bottom of the screen. Excellent for development of language skills and private viewing without disturbing others.

Automatic Channel Setup

Activating this feature allows the VCR tuner to scan through television frequencies, automatically storing active broadcast channels into memory. Then, only active channels programmed into memory are tuned using the CHANNEL ▲▼ buttons on either the remote or front panel of the VCR. Automatic channel preset can be repeated whenever desired, should new channels become available. Channels can be manually added or deleted.

Front Panel Audio/Video Inputs

Enjoy the added convenience of recording tapes directly from a camcorder to the VCR portion with a full color monitor built-in. And as a bonus, accessory video equipment such as a video game, DVD Video player, or Web browser can be connected for direct playthrough to the TV section.

181-Channel FS Tuning

The digital quartz tuner is capable of receiving up to 181 channels, including UHF, VHF, and 113 cable channels, without the inconvenience and expense of a cable company decoder/converter (on non-scrambled cable systems). Channel tuning is by random access with the remote control transmitter or scan tuning up and down by remote or at the set.

Bilingual (English/Spanish) Onscreen Function Display

Indicates record/playback functions, channel number, clock setting, date, counter, programming, one-touch record and record standby, keeping the user alerted to the status of all features in a heads-up, onscreen display.

Daylight Savings Time Adjustment

Special Effects

15x Forward/Reverse Latching Search

Search in Forward or Reverse mode at 15 times normal playing speed in SLP, and 5 times normal in SP. The Latching Search feature provides continuous forward or reverse search with a single touch of the control. A second touch stops the search operation and returns the unit to the Play mode.

Remote Control

Remote Locator™

Lost or misplaced remotes are easy to find! Simply press the POWER button on the set. The words "Locating Remote" appear on the screen, and the remote control beeps—leading you right to it.
